The Midtown Connector Foundation (MCF) has coordinated work activities on conceptualizing the project in consultation with GDOT. The goals of the project include reconnecting the street grid between Midtown and the Georgia Tech area, improving safety and operations on the Downtown Connector, and providing additional pedestrian and bicycle facilities in the area. Information will also be provided on the status of the work to date and upcoming work activities. This project has the potential to be the largest project implemented on the Downtown Connector in recent memory.*

3. **Regional Development Plan Update** *Jared Lombard, ARC*
