The UPWP includes a description of the planning work and resulting products, who will perform the work, time frames for completing the work, the cost of the work, and the source(s) of funds.

B. FY 2027-2030 Transportation Improvement Plan (TIP) / 2050 Metropolitan Transportation Plan (MTP) Amendment 7 **(10 mins)**

- Public Hearing for FY 2027-2030 Transportation Improvement Plan (TIP) / 2050 Metropolitan Transportation Plan (MTP) Amendment 7

Michael Haire, Planner, Principal Transportation Planning

Summary: The Transportation Improvement Program (TIP) is a list of federally funded transportation project phases over a short-range planning horizon. ARC has developed a draft of the new FY 2027-2030 TIP, which is undergoing a public comment period throughout the month of October. Additionally, this TIP update will be accompanied by Amendment #7 to the long-range Metropolitan Transportation Plan (MTP), as project changes are being made in both the short-range and long-range plans. Included in these updates are the awards from the 2026 TIP Solicitation, which is the process through which ARC programs its regionally suballocated

federal funds on projects in the region, as well as federal funding awards from GDOT's competitive project call. An informational presentation on the TIP Solicitation was provided in August. The plan updates to the TIP and MTP are intended to facilitate the following: 1) addition of new projects that are considered either exempt or non-exempt from air quality conformity analysis, 2) the deletion of projects that are considered either exempt or non-exempt from air quality conformity analysis, 3) project cost estimate and programmatic changes that are of a time sensitive nature or cannot be handled administratively, 4) the programming of federal funds on a project phase for the first time, 5) the moving of projects from the TIP to the MTP, or from the MTP to the TIP, 6) the updating of project details that impact air quality conformity, or 7) the updating of project details that do not impact air quality conformity.

VII. Joint Discussion/Information Items – *Andre Dickens*, Chair

B. Trails and Bike Facility Planning Update **(10 mins)**

Eric Meyer, Planning Coordinator, Transportation Planning

Summary: ARC staff will brief the Board on *Riding Forward*, the unifying banner for three interrelated trail and bicycle plans advancing under a single regional vision: the Regional Trail and Bicycle Facilities Network Plan (all 19 MPO counties), the South Metro Trail and Bicycle Facilities Network Plan, and the Flint River Trail Plan, a signature corridor reconnecting Atlanta's Southside communities to the BeltLine. Building on ARC's *Walk. Bike. Thrive!* plan, *Riding Forward* frames trails and bikeways as short-distance mobility infrastructure and advances the region's active transportation, safety, equity, and economic competitiveness goals, feeding directly into MTP 2055 and the TIP. Staff will present the initiative's purpose, phased engagement approach, progress to date, and the path toward adoption in 2028.
