16	Between Thrasher and Lillian Webb I believe we have enough large parks. A few smaller pocket parks would be appropriate, especially if more retail is added on college then some park parks could be added between South Peachtree, Skin Alley and College. A community space at Fickling Pond would provide residents on that side of town a more convenient option. More commnity space around Betty Mauldin Park would also give residents on that side of town a more convenient option.	Jan 24, 2012 9:24 AM

1	I recently visited the town of Roswell and they had wifi for the entire town, and it was free. I think that would be a great addition to our town.	Feb 6, 2012 1:52 PM

3	have considered moving my business to downtown Norcross	Jan 31, 2012 10:31 AM
4	I feel the city could do a better job of preserving the Norcross area for the future. This would include protecting the natural green spaces and doing more to educate and promote community involvement in environmental protection.	Jan 27, 2012 8:13 AM

8	Creating a quiet zone to silence the airhorns on the trains would be the single best quality of life improvement that could be made in Norcross.	Jan 25, 2012 5:42 PM
9	I'm glad to see the sidewalk improvements going down to Buford Hwy.	Jan 25, 2012 2:27 PM
10	In general, I am proud to live in Norcross and enjoy the amenities it provides. I frequent downtown businesses in order to support the local economy. I feel in general that the city is run well and appreciate the opportunities for citizens to be involved in planning and decision-making.	Jan 25, 2012 1:25 PM
11	I would really like for Norcross to spend less time on down town, which already looks great, in order to improve the REST of the city. What about those of us not in downtown??	Jan 24, 2012 2:00 PM
12	Need better benches at Lillian Webb Park and more money for upkeep of that beautiful park.	Jan 23, 2012 8:24 PM
13	I sincerely appreciate all the hard work of the city officials, city workers, and private enterprise partners in planning a great future for Norcross. The look you've created for Lillian Webb Park is the direction I'd like to see Norcross take for new growth, and I'd like to keep the existing historical portion of the city as it is with necessary upkeep along the way. The attitudes of City of Norcross is outstandingly positive, enthusiastic, and helpful, and from what I have seen everyone is well-trained and upholds a good standard of professionalism. I love this city! :)	Jan 23, 2012 7:39 PM
14	Keep up the good work!	Jan 23, 2012 7:11 PM
15	Improve the city's appearance by having the undeveloped/uncompleted portions of neighborhoods maintain a "finished" look. (i.e. it doesn't look like the project was unfinished and left abandoned by the developer.	Jan 22, 2012 7:58 PM
16	I would love to extend the downtown feel to include Beaver Ruin Road	Jan 21, 2012 5:53 PM

17	Enough with the signs, we know where we are. Encourage new retail. Do something with empty "green space"	Jan 20, 2012 7:38 PM
18	I love Norcross!	Jan 20, 2012 4:09 PM
19	While parking is a problem, there is not sufficient room within the immediate downtown for more. If deck is considered, should be well hidden. This seems to be the focus of this report and this is the only place I can comment openly on it. Will take great creativity to find suitable spot.	Jan 20, 2012 4:35 AM
20	Norcross is a jewel of a small town. It is what all the other small towns in the metro area want to grow up to be.	Jan 19, 2012 11:29 PM
21	I did not buy in the historic Norcross area. You are trying to turn the area into Planned Housing Communities. That is NOT what we brought into or where we want to live. We brought a foreclosed house that was in horrible condition. We have been working on getting the property presentable for 3 years. It takes time and money to rehab a property and there are PLENTY of foreclosures in Norcross. Stop trying to make our neighborhood "fit" into your vision of Norcross. Putting a pretty package on a bad area doesn't make it any less problematic. Instead work on figuring out how to keep the property values up and address the foreclosure properties. Enough of the green space junk and changing trash/recycle program constantly. Stop with the fluff programs and get some meat into what needs fixing!	Jan 16, 2012 11:38 AM
22	Please consider how this study connects and related to the remainder of the city.	Jan 16, 2012 10:47 AM
