

2022 Safety Performance Targets

Transportation Coordinating Committee
November 5, 2021

Safety Performance Targets Context

USDOT's Safety Performance Management regulation requires State DOTs and MPOs to set targets for 5 safety performance measures

1. Number of fatalities
2. Rate of fatalities
3. Number of serious injuries
4. Rate of serious injuries
5. Number of non-motorized fatalities and non-motorized serious injuries

The 5 performance targets are based on 5-year rolling averages

ARC Process for Setting Safety Targets

MPOs establish their targets by:

- A. Concurring with State DOT targets
- B. Establishing targets for the metropolitan planning area
- C. Both A & B

ARC Process for Setting Safety Targets

MPOs establish their targets by:

- A. Concurring with State DOT targets
- B. Establishing targets for the metropolitan planning area
- C. Both A & B

We continue to work on Option C based on previous TCC and TAQC guidance, in addition to input from the Regional Safety Task Force

ARC Process for Setting Safety Targets

GDOT's targets are due to FHWA by August 31 each year

ARC needs to establish targets within 180 days of GDOT reporting its targets (February 27)

Typically done by reviewing with committees and then incorporating in the next RTP documentation cycle associated with an amendment or administrative modification

Next update to documentation will occur following conformity determination on Amendment #4 (late November or early December)

Historical Statewide and Regional Performance

Statewide	2016	2017	2018	2019	2020
Number of fatalities	1556	1540	1504	1491	1551
Number of serious injuries	5206	5370	6401	7308	6382
Non Motorized Fatalities & Serious Injuries	557	644	630	702	665
Fatality rate (per HMVMT)	1.299	1.25	1.17	1.155	1.242
Serious injury rate (per HMVMT)	4.347	4.359	4.979	5.663	5.101

ARC	2016	2017	2018	2019	2020*
Number of fatalities	564	581	607	592	623
Number of serious injuries	2127	2344	2849	3367	3573
Non Motorized Fatalities & Serious Injuries	378	434	386	411	341
Fatality rate (per HMVMT)	0.963	0.982	1.015	0.933	1.109
Serious injury rate (per HMVMT)	3.630	3.962	4.765	5.306	6.363

*2020 ARC fatalities are preliminary data from Numetric. Actual values may change from official source, FARS.
