# Community Development Assistance

Call for Projects – Apply Now

ARC's Community Development Group strives to work with local jurisdictions to plan and implement programs and projects that improve the quality of life for their residents.

The group has issued its first annual call for projects, inviting cities, counties, CIDs, and non-profits to submit applications seeking technical assistance. In this pilot year, ARC will collaborate on a limited number of projects that will help you reach your community vision while also implementing critical parts of the Atlanta Region's Plan. Applications are due on or before March 9th.
