Vanessa Fleisch	Liz Hausmann
Steve Hutchison	Larry Johnson
Deborah Jackson	Cesar Mitchell
Mickey McGuire	Eric Maxwell
John O'Callaghan	Jannquell Peters
Narender Reddy	Bob Weatherford
Rochelle Robinson	Yvonne Williams
Jeff Turner	
Doreen Williams	

1. Welcome

Mark Mathews, Moderator

2. Public Comment Period

3. Information regarding new DRI Process

Andrew Smith, ARC

Changes are coming to the role ARC will play in conducting DRI reviews. Jon will give some insight into what these changes might be and how they will impact ARC.

4. Update on all things Water

Katherine Zitsch, ARC

2016 was a critical year for all things water, especially the latter half of the year where arguments were heard by a Special Master to the Supreme Court regarding ongoing litigation regarding water usage of the Chattahoochee River. The area also plunged into a Level 2 drought. Katherine will provide updates on these topics.

5. Regional Snapshot:

Mike Carnathan, ARC

Are We Still Stuck in the Middle?

Last year, ARC did an analysis of wages in metro Atlanta, finding that wage-growth in middle-wage occupations had been particularly anemic since 2010, and this sluggish growth in the middle was particularly pronounced in metro Atlanta when compared to other peer metros. We have updated this research to determine if the fundamental trends have changed.

6. Turner Field LCI

Jessica Lavandier, City of Atlanta

In 2015, ARC funded the Turner Field LCI. This study will help the communities adjacent to Turner Field envision the future of the stadium and surrounding parking lots, develop a concept plan and rethink the transportation infrastructure needs, all while enhancing and protecting the existing neighborhoods.
