<b>Charles Oddo</b>	Narender Reddy
<b>Rochelle Robinson</b>	<b>Steve Tumlin</b>
	<b>Jeff Turner</b>
	Bob Weatherford
	Doreen Williams
	Yvonne Williams

**1. Welcome and Chair Comments** *Richard Oden, Chair*

**2. Public Comment Period**

**3. Drought Update** *Andrew Morris, ARC*

As drought conditions intensify over north Georgia, staff will present the latest drought monitor reports and discuss how the state and the District are responding. Reports will include current soil moisture maps of the region as well as local lake levels.

**4. Developments of Regional Impact (DRIs):** *Andrew Smith, ARC*

**Overview of the Latest Trends and Selected Project Details**

The pace of development in the region has increased tremendously in the past year. Staff will present an overview of reviews by location and development type, then take a “deeper dive” into the details of selected projects (of various types) in urban, suburban, and exurban areas.

**5. Regional Snapshot-The Economy: Swimming (Now)...with an Undertow** *Audrey Spiegel, ARC*

The Great Recession hit us hard: the country and the region. A broad recovery has been elusive, even invisible at times. Nationally and locally, economic momentum is now solid, with most of the lagging indicators caught up or close to caught up. Yet for all the good news, there are still problem areas/ indicators. These could still be a drag on recovery and/or cause an end to what has been a cycle, if a fitful one, of economic expansion.

## 6. Overview of TransFormation Alliance

**Marisa Ghani, ARC**

ARC, MARTA, Enterprise Community Partners and other organizations have received funding from the Ford Foundation for several years to advance affordable housing and equitable strategies around the MARTA rail stations.

## 7. Adjourn
