CALL FOR PROJECTS: FAQs

When are submissions due?

- **Call for Projects window closes on March 4th!**

- After March 4th, we expect there will be a back-and-forth between ATL staff and sponsors to check submissions for completeness and get to the right level of detail per project.

- Statutory deadline requirement for the Priority Investment List is driving this timeline (September 1st)

What level of detail is expected in my submission?

- Submit the best information you have available by March 4th. We can work together on the details thereafter if needed.

- Prioritize project details and applications for those projects within a 6-year time frame.

- Consider logically grouping projects as programs (e.g. stop/station amenities, technology upgrades, vehicle replacements/purchases, bike/ped infrastructure).
