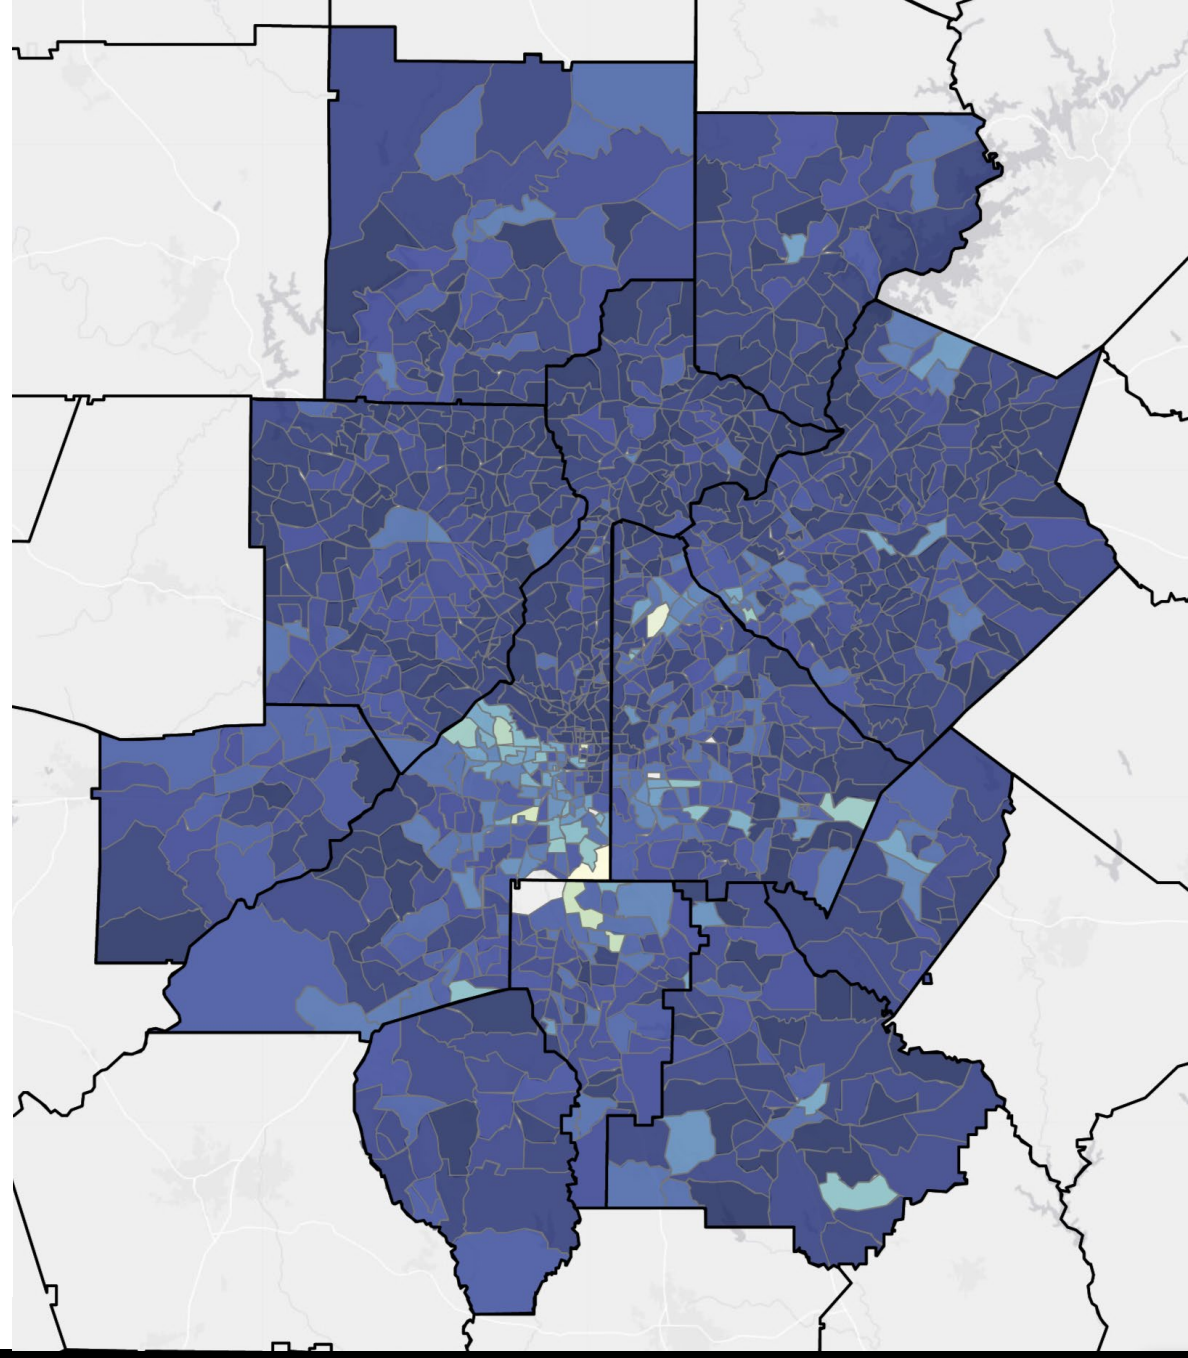
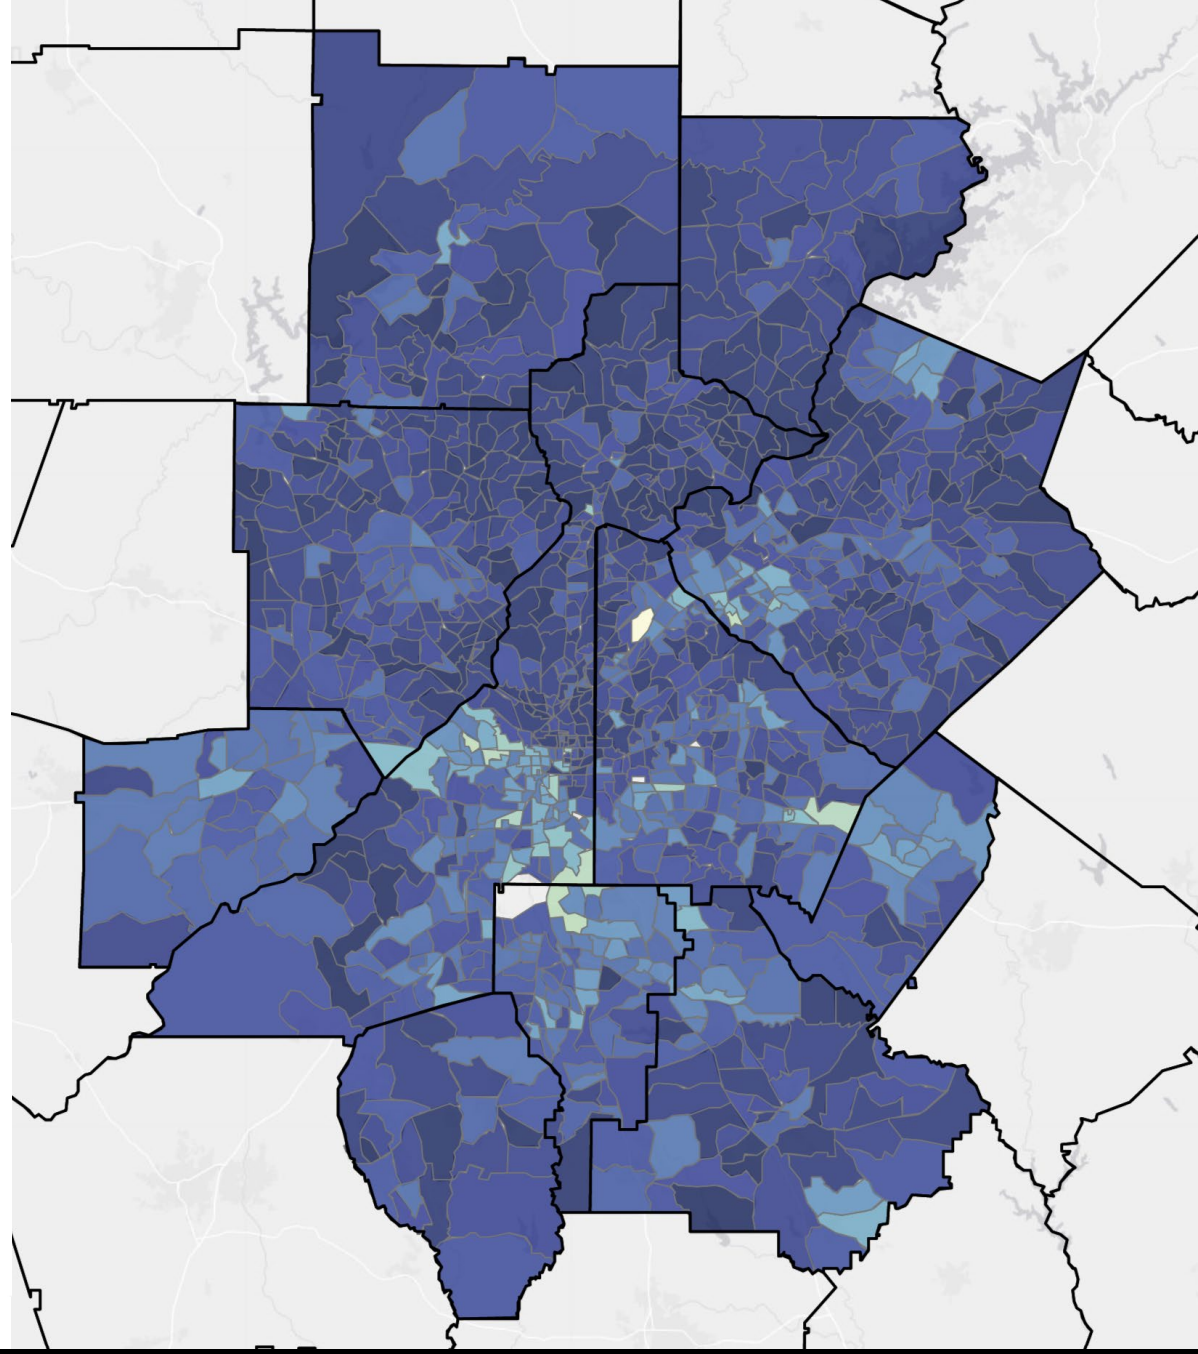
Computer access

Percentage of households with access to a computer.

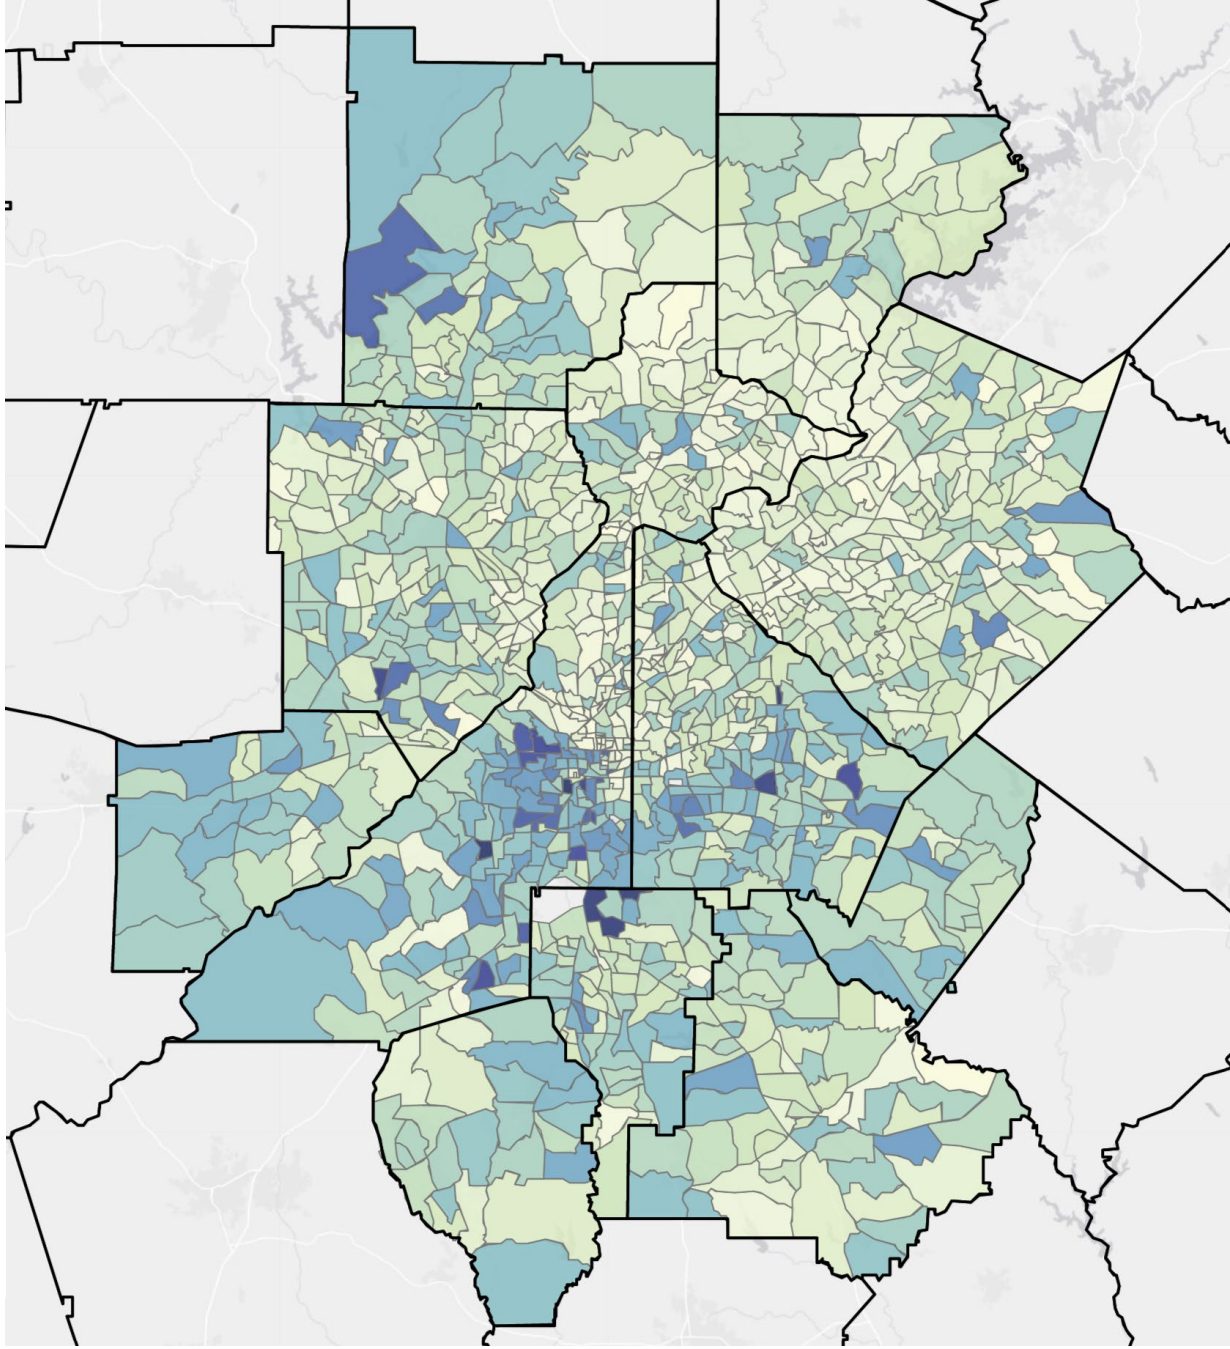


Internet access

Percentage of households with broadband internet.

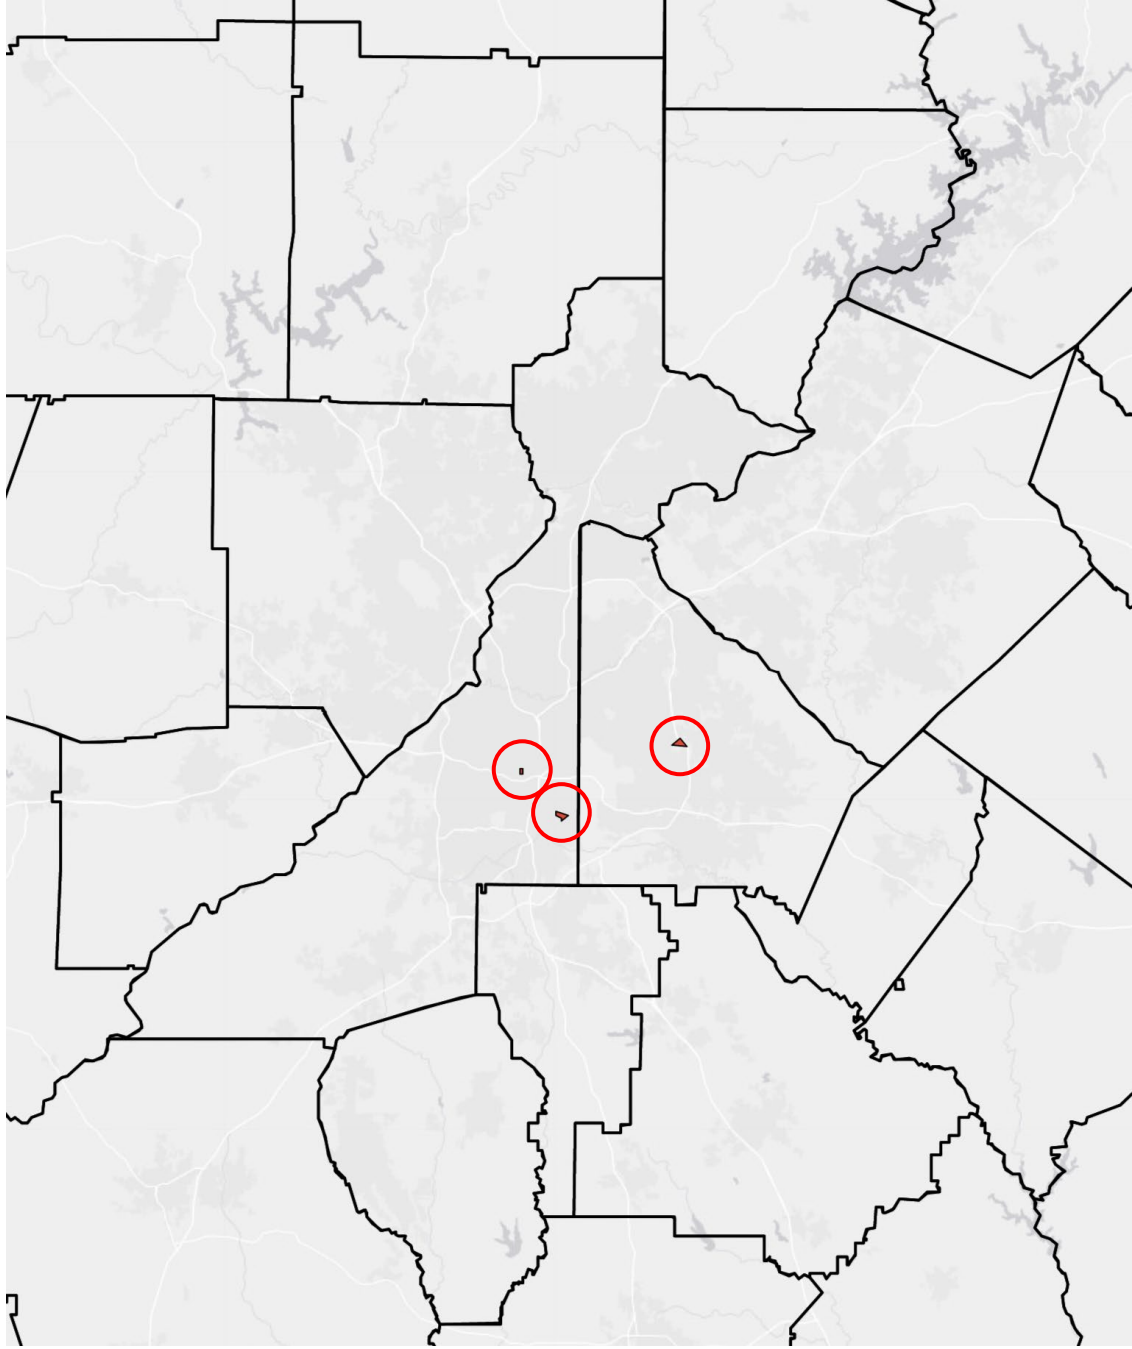


Population with disabilities

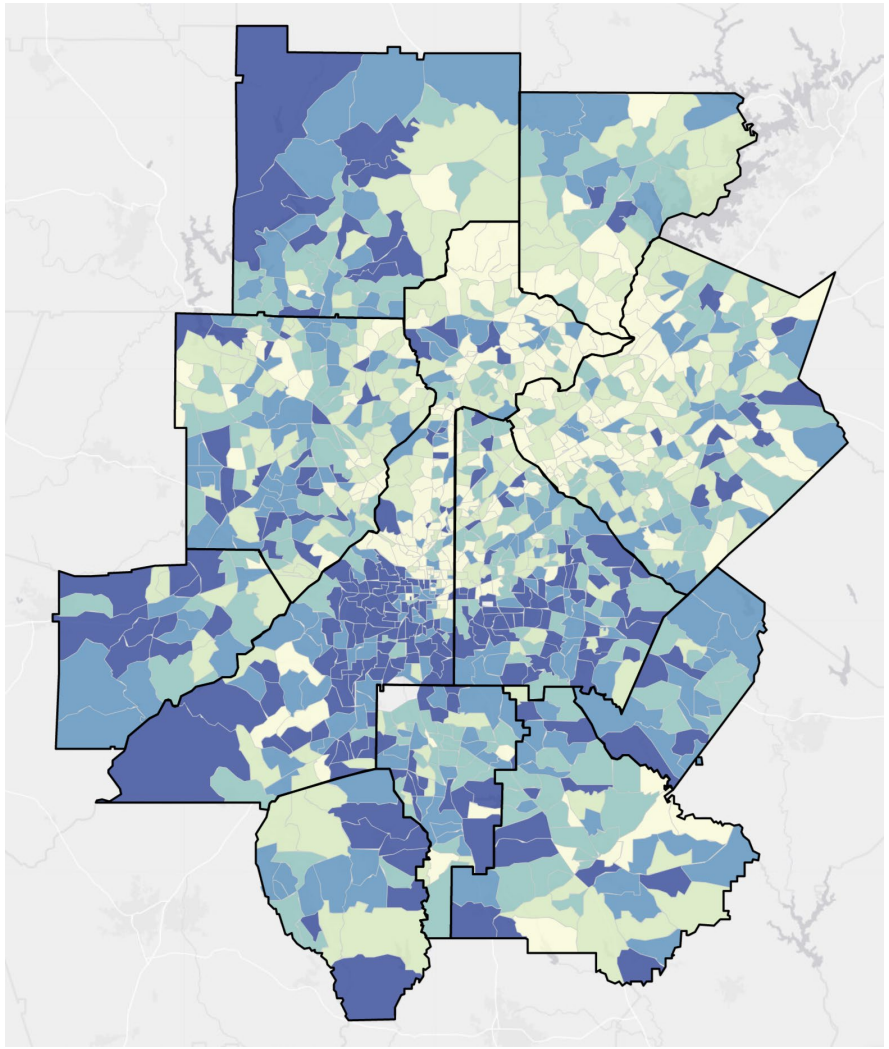


Population with disabilities

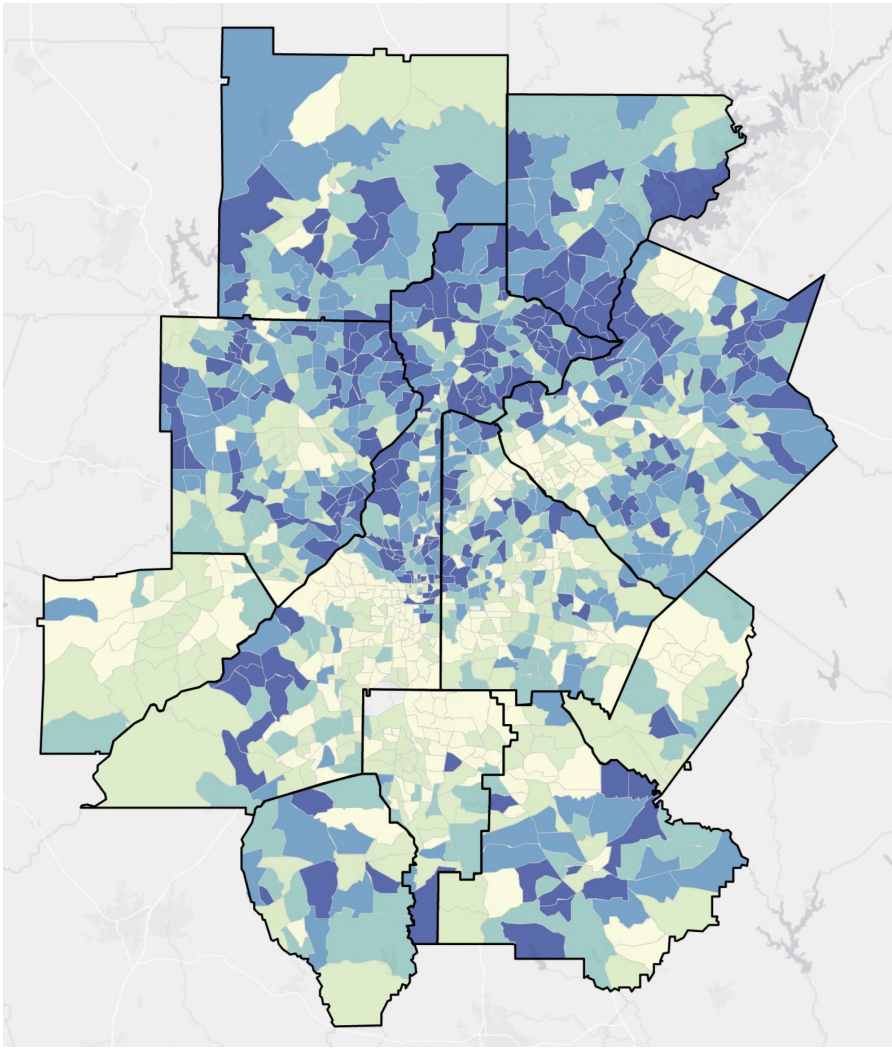
(More than 40%)



Disabilities + Internet



Disabilities

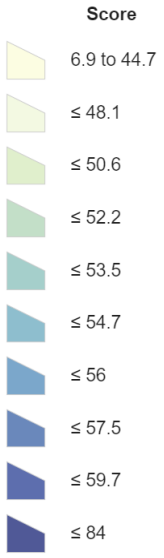


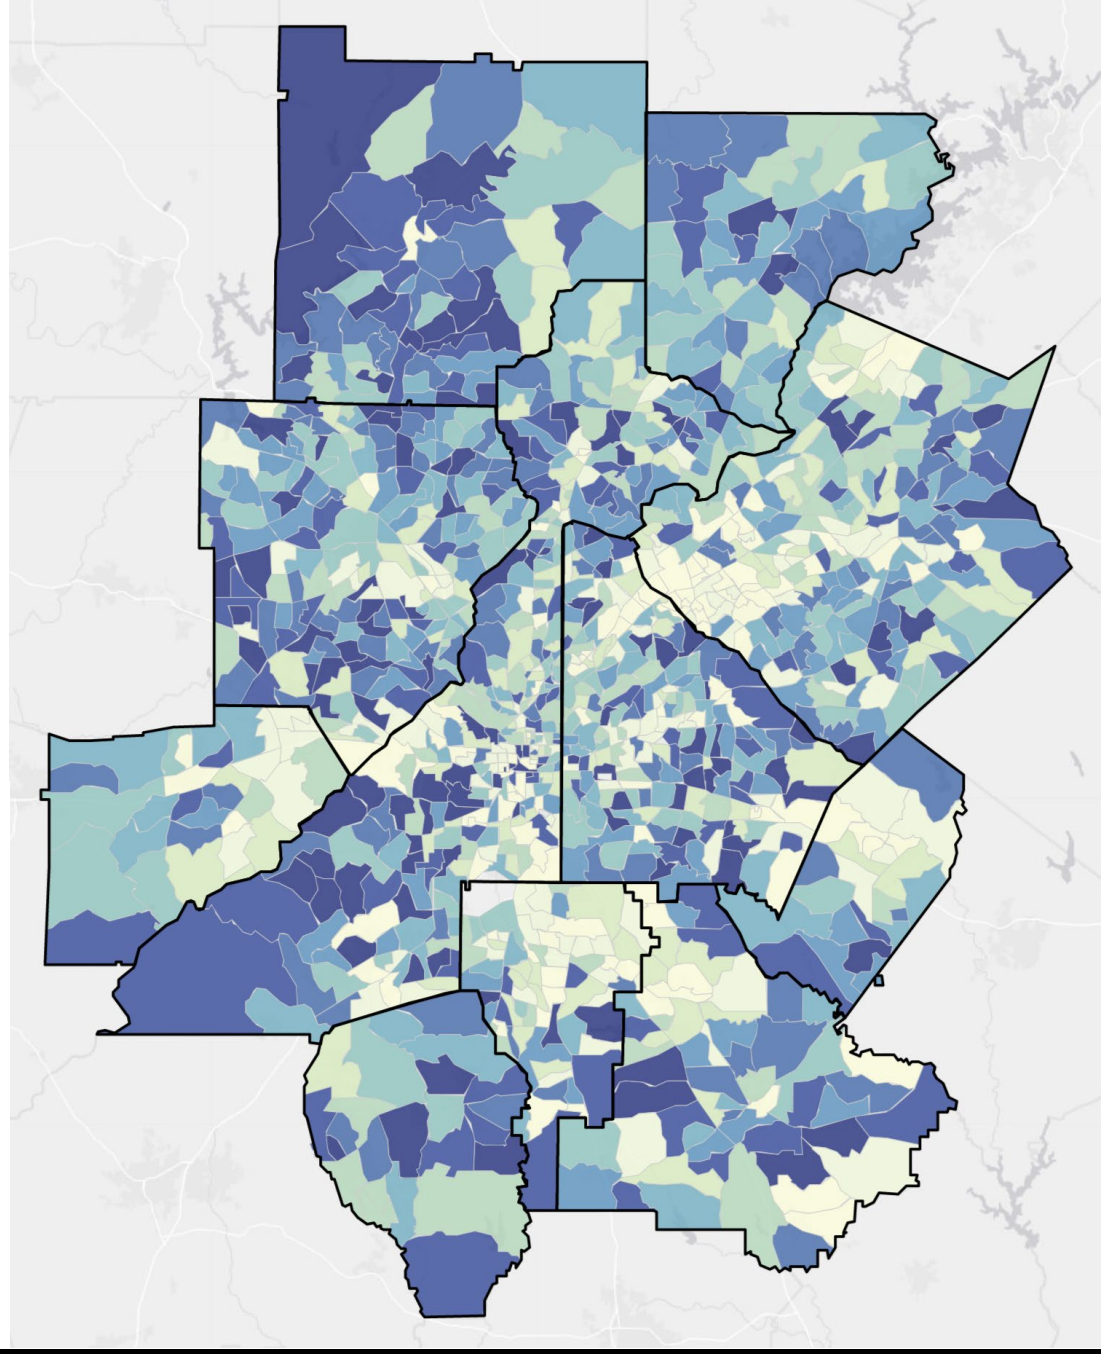
Internet

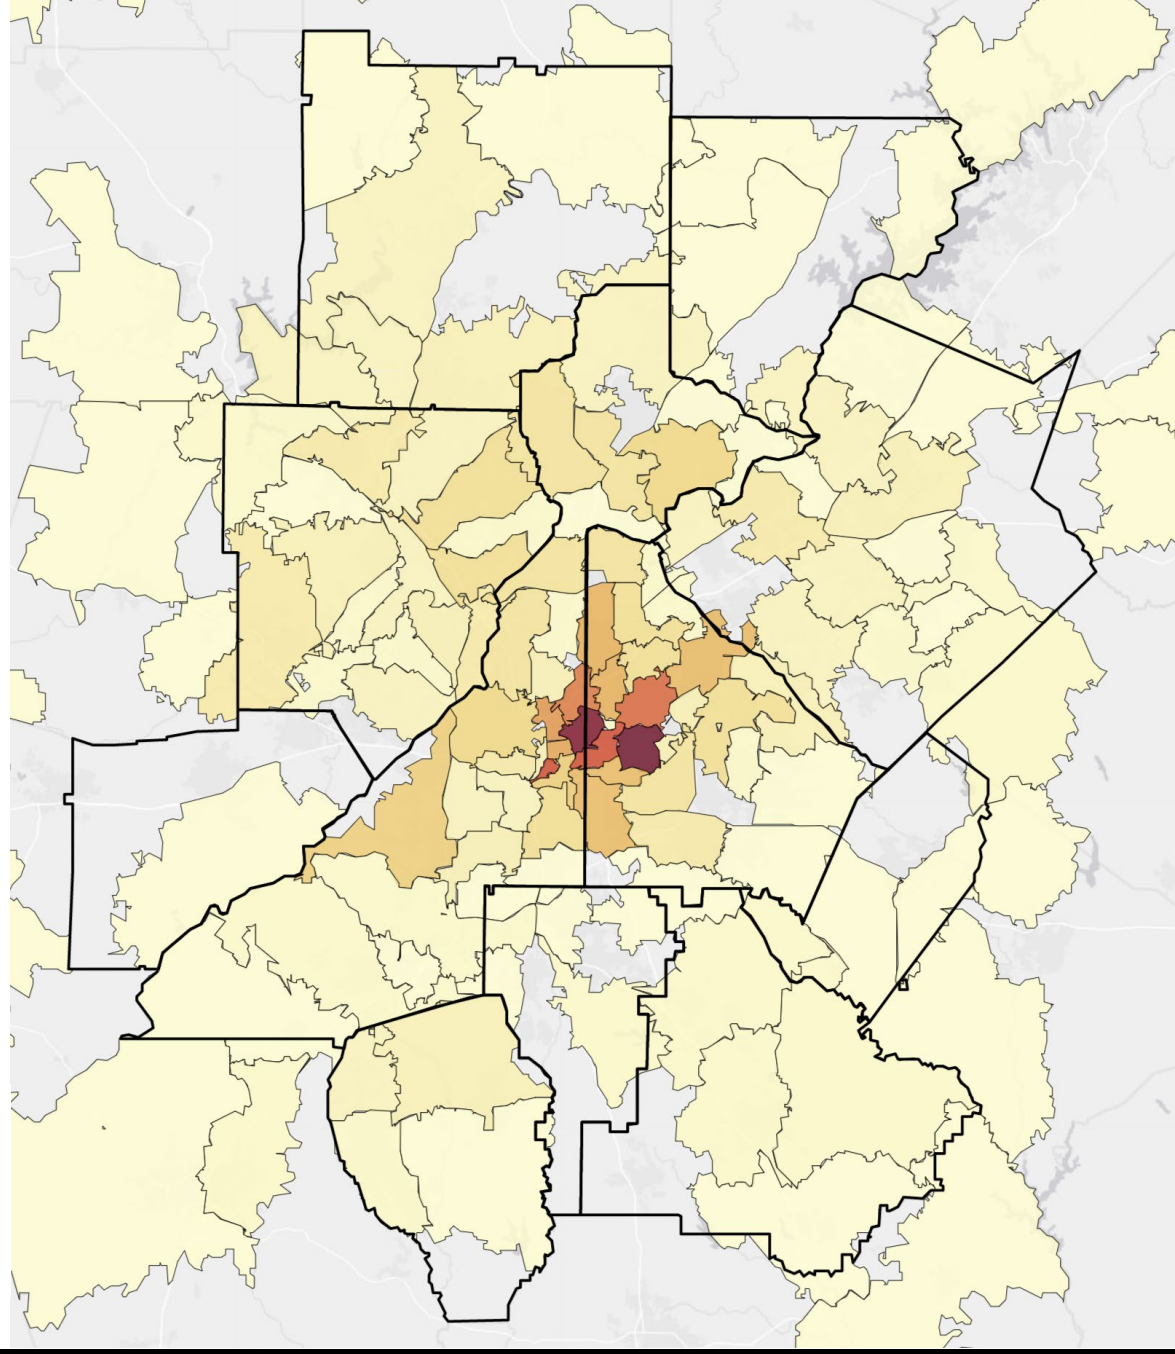
Disabilities + Internet

Combining the prevalence of disabilities and internet into an index gives us…something.

Note: I've visualized it in 10 quantiles looking for some patterns, but I'm sure how I feel about the usefulness of this.





Attendance/participation


Map of data provided by Full Radius. This is where Full Radius audience/participants identified as their residences.
