FROM: Charlotte Nash, Transportation & Air Quality Committee

IMPORTANCE:

TIP Amendment #4 was developed to:

For additional information on the amendment: www.atlantaregional.org/amendment

A primary purpose of this amendment is to reflect recommendations for projects and project phases to be added to the Transportation Improvement Program (TIP). Additional information on the project solicitation recommendations and process is available at: www.atlantaregional.org/projectsolicitation.

Regarding the required conformity determination for the TIP amendment:

1. ARC determined that the changes reflected in Amendment #4 do not require a new technical evaluation for conformity. ARC provided this information to the adjacent Cartersville-Bartow MPO, also in the Atlanta Nonattainment Area.
2. Prior to the formal public comment period, ARC received concurrence as required through the Interagency Consultation process that the conformity determination for Amendment #4 does not necessitate a new regional emissions analysis.

Pursuant to the ARC Community Engagement Plan, a 30-day public comment period was conducted from December 18, 2017 to January 16, 2018. Comments received, and responses to those comments, were provided to TCC, TAQC and the ARC Board prior to action being taken.
