1. Welcome & Announcements

Sam Shenbaga
ARC

4. Overview: East Point City Agriculture Plan

ARC partnered with the non-profit Food Well Alliance to create Metro Atlanta's first city agriculture plan in the City of East Point. Through a community driven process, the plan identifies local food assets and offers recommendations on how the city can support its community food system.

Sarah Brown
Food Well Alliance

5. Update: Engaging CBOs

Marian Liou will discuss how ARC will be using the Fall Arts Forum to co-design community planning projects with Community Based Organizations using arts and culture as an engagement and planning tool. She will discuss the motivation, process, and desired outcomes for this initiative.

Marian Liou
ARC

5. Panel Discussion: Building Stronger Relationships with CBOs

Panelists will share their thoughts on how local governments can build stronger relationships and more effectively collaborate with Community Based Organizations.

Moderator
Sam Shenbaga
ARC

Panelists

Anthony Alston, City of East Point
Maceo Rogers, City of East Point
Kimberly Smith, City of East Point
Chelsea Townsend, East Point Food Advocate

5. Climate Resources Series: SolarAPP+

Kelsey Waidhas will provide an overview of the SolarAPP+ software from the National Renewable Energy Laboratory. This Department of Energy-funded software is available to cities and counties for free and automates the approval process of residential rooftop solar permits, saving staff time and expediting permit processing times.
