Affordable Housing is Limited

Of the 9,238 total units for rent in Rockdale County, only 15.5%, or 1,429 units, of any size (studio, 1-bedroom, 2-bedroom, and 3+ bedrooms) cost under \$750 a month – not nearly enough to meet the needs of the rapidly growing population.¹

Furthermore, given that one in four (or 25% of) renters age 65+ in Rockdale County do not have access to a vehicle, and 10.5% of all renters do not have access to a vehicle, there is a need for rental housing to be located near services and transportation options.¹

LOCAL SOLUTIONS

Policies must be implemented that encourage the development of a mix of housing types within existing communities, at a variety of price points. Zoning regulations should be written to allow homes to be built in close proximity to the services that enable people to remain independent as they age.

- » Does your city/county provide incentives (e.g., tax breaks, fee-waivers) to encourage the development of affordable and supportive housing units?
- » Do your city's and/or county's zoning regulations allow for a diversity of housing types and options (e.g. secondary units on one property)?
- » Do your city's and/or county's development codes encourage universal design elements (e.g., no step entries, wider doorways) to allow for a diversity of housing types and options?
- » Does your city/county permit access to basic services within walking distance of residences?
- » Does your community require a certain percentage of new housing developments to include affordable units?
