ARC's COVID-19 RESPONSE

Helping organizations transition to hybrid work environments

Georgia Commute Options (GCO), a program managed by ARC, served a vital role in helping organizations move to telework environments during peak pandemic times. As shelter-in-place orders began to lift in Georgia, GCO began helping companies establish hybrid work environments (continued telework, flexible schedules, and shared spaces), recognizing the strong desire of most employees surveyed to continue teleworking at a higher level than pre-pandemic.

HEALTHY, LIVABLE COMMUNITIES

ARC works to foster vibrant, pedestrian-friendly communities and supports healthy living and aging by offering a range of services for older people and individuals with disabilities.

Improving quality of life for Fayette residents of all ages and abilities

\$739,364 in state and federal funds allocated by ARC to **Fayette Senior Services** for direct services provided to Fayette residents, including **congregate and home-delivered meals, in-home support services, transportation, case management, and COVID relief funds.**

Making Fayette an even better place to live, work, and play

ARC staff provides technical assistance, as well as **planning, training, and facilitation services** to local government staff and elected officials.
