

ATLANTA REGIONAL COMMISSION

**A RESOLUTION BY THE ATLANTA REGIONAL COMMISSION
ADOPTING UPDATES TO COLLECTORS AND MINOR ARTERIALS FOR THE
ATLANTA HIGHWAY FUNCTIONAL CLASSIFICATION SYSTEM**

WHEREAS, the Atlanta Regional Commission is the designated Metropolitan Planning Organization (MPO) for transportation planning within the Atlanta Metropolitan Area Boundary which currently includes all or portions of 19 counties; and

WHEREAS, in March 2012, the US Census Bureau designated a twenty-three county Atlanta Urban Area based on results of the 2010 Census, and

WHEREAS, in January 2013, the Atlanta Regional Commission did adopt an Urban Area Boundary based on this new Atlanta Urban Area designation, which is a boundary used as the demarcation of routes on the Federal-aid highway system for designation as either rural or urban and to define the limits of the Highway Functional Classification System pursuant to 23 CFR 470.105(a) and (b), and

WHEREAS, on October 11, 2013, the Federal Highway Administration did approve the Urban Area Boundary for Atlanta, and

WHEREAS, the Georgia Department of Transportation, in cooperation with the Atlanta Regional Commission and local governments within the 19 county area, conducted a comprehensive review of the Atlanta Highway Functional Classification System based on the updated Atlanta Urban Area Boundary, and

WHEREAS, recommended changes for the Principal Arterial network for the 19 county region's Highway Functional Classification System were approved by the Atlanta Regional Commission on August 27, 2014, and

WHEREAS, additional changes to the Atlanta Highway Functional Classification System for Minor Arterials, Major Collectors and Minor Collectors are proposed, as detailed in the attached Tables 1, 2 and 3, and

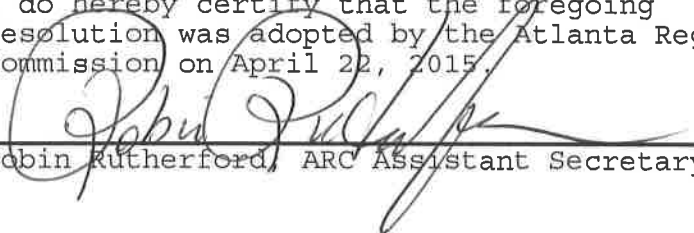

WHEREAS, the changes outlined in Table 1 and previously approved changes for the Principal Arterial Network collectively result in a revised Atlanta Highway Functional Classification System, as mapped in Figure 1, and

WHEREAS, the Georgia Department of Transportation has indicated its intention that the National Highway System for Georgia be updated through separate action at a later date to align that system with the new Principal Arterial network, and

WHEREAS, additional changes to the Atlanta Highway Functional Classification System for Local Streets are still under review and will be presented for separate action at a later date,

NOW, THEREFORE, BE IT RESOLVED that the Atlanta Regional Commission adopts the updated Minor Arterial, Major Collector and Minor Collector networks of the Atlanta Highway Functional Classification System for the 19 county area.

I do hereby certify that the foregoing resolution was adopted by the Atlanta Regional Commission on April 22, 2015.

Robin Rutherford, ARC Assistant Secretary
