

Senior Rental Challenges

Approximately 66% of South Fulton County renters age 65+ pay more than 30% of their income on housing. Housing is considered affordable if a person pays no more than 30% of their income on rent.

Older Adults in South Fulton County

As of 2017, South Fulton County – Chattahoochee Hills, College Park, East Point, Fairburn, Hapeville, Palmetto, South Fulton, and Union City – was home to approximately 20,202 adults age 65 or older, or 10.08% of the total population.¹ 13,388 housing units in South Fulton County are headed by a person 65+, and of these, 5,814 are rental units.¹

By 2040, the population of older adults in the metro Atlanta region is forecasted to more than double from the current levels.²

Rentals are Costly

Median monthly rent in South Fulton County is: ^{1,3}

- \$713.00/month for a 1-bedroom
- \$896.15/month for a 2-bedroom

Cost of Living in South Fulton County

The average median household income of people age 65+ in South Fulton County is 15.1% lower than for all ages.¹ And more than one in three people 65+ have annual incomes of less than \$23,512, which is considered very low income compared to the median income of \$48,893 in South Fulton County.¹

The chart below demonstrates the challenges of an individual 65+ living on the average mean social security income in South Fulton County of \$16,148.90 per year.^{1,4}

	Monthly
Income	\$1,345.74
Basic Living Expenses	
1-Bedroom Median Rent (S. Fulton County)	\$713.00
Food and Beverages	\$508.33
Transportation	\$609.67
Apparel, Personal Care Products, and Services	\$140.08
Healthcare**	\$493.25
Life and Other Personal Insurance	\$207.58
Remainder of Income for Other Expenses*	-\$1,326.18

Average Finances for South Fulton County Person Age 65+ with Average Social Security Income of \$16,148.90/Year

* An average person age 65+ in the South actually spends \$516.33 on "other" expenses, which can include emergencies, home supplies, entertainment, etc.

**Healthcare includes health insurance, medical services, drugs, and medical supplies.

Affordable Housing is Limited

Of the approximately 32,433 total units for rent in South Fulton County, 21.4%, or 6,932 units, of any size (studio, 1-bedroom, 2-bedroom, and 3+ bedrooms) cost under \$750 a month – not nearly enough to meet the needs of the rapidly growing population.¹

Furthermore, given that over two in five (or 42% of) renters age 65+ in South Fulton County do not have access to a vehicle, and 21.6% of all renters do not have access to a vehicle, there is a need for rental housing to be located near services and transportation options.¹

LOCAL SOLUTIONS

Policies must be implemented that encourage the development of a mix of housing types within existing communities, at a variety of price points. Zoning regulations should be written to allow homes to be built in close proximity to the services that enable people to remain independent as they age.

- » Does your city/county provide incentives (e.g., tax breaks, fee-waivers) to encourage the development of affordable and supportive housing units?
- » Do your city's and/or county's zoning regulations allow for a diversity of housing types and options (e.g. secondary units on one property)?
- » Do your city's and/or county's development codes encourage universal design elements (e.g., no step entries, wider doorways) to allow for a diversity of housing types and options?
- » Does your city/county permit access to basic services within walking distance of residences?
- » Does your community require a certain percentage of new housing developments to include affordable units?

¹ U.S. Census Bureau 2017 American Community Survey five year estimates for 2013-2017. Estimates assume that the population and housing units are evenly distributed across the area of each census tract for those tracts that are not fully within South Fulton County.

² Atlanta Regional Commission population projections.

³ Rent is the contract rent plus the estimated average monthly cost of utilities (electricity, gas, and water and sewer) and fuels (oil, coal, kerosene, wood, etc.). Gross rent is intended to eliminate differentials that result from varying practices with respect to the inclusion of utilities and fuels as part of the rental payment.
